CORIS® System Compatible Endoscope List

The endoscopes on this list are compatible for use with the CORIS® System.

Only endoscopes included on the compatibility list have been evaluated and authorized for use with the CORIS System. Use of non-listed endoscopes may result in device malfunction, endoscope damage and/or ineffective cleaning.

Each compatible endoscope requires specific **CORIS Accessories** as indicated in the compatibility list below.

Prior to first-time use of an endoscope with the CORIS System, please locate your endoscope's manufacturer and model number in the list below to confirm compatibility and identify the required CORIS Accessories.

The CORIS System Compatible Endoscope List includes endoscope models that meet internationally recognized standards and are available in different regions. Availability may vary by region depending on the endoscope manufacturer's local regulatory approvals.

Refer to the CORIS System User Manual for further information.
