Statement on California Proposition 65

Under the California Safe Drinking Water and Toxic Enforcement Act of 1986 (known as Proposition 65 or "Prop 65"), the State of California creates and updates annually a list of chemicals known by the State of California to cause cancer or reproductive toxicity ("Prop 65 List").

Prop 65 requires "clear and reasonable" warnings to be given if, in the course of doing business, a person knowingly and intentionally exposes an individual in California to a chemical on the Prop 65 List. Prop 65 also prohibits knowingly discharging or releasing a chemical on the Prop 65 List such that it is likely to, or will, enter any California drinking water source.

Nanosonics products supplied to California are not intended to expose any person to any chemical on the Prop 65 List during normal product use. Accordingly, the Prop 65 "clear and reasonable" warnings requirements do not apply. As a result, Nanosonics products do not include warnings specifically related to Prop 65 or the Prop 65 List chemicals and Nanosonics does not make available a specific list of Prop 65 List chemicals that may be contained in Nanosonics products.

Nanosonics reviews suppliers' certifications, content declarations, and confidentially disclosed chemicals and materials information. Based on foregoing information, Nanosonics has determined to the best of its knowledge that while Nanosonics products may contain one or more of chemicals on the Prop 65 List, the products are not intended to cause user or patient exposure to any contained substances, nor are they intended to be released or discharged during normal product use.

Nanosonics hereby undertakes to continue to monitor for new information regarding Prop 65 chemicals during further product development and regulatory changes – and will take appropriate action as needed to remain in compliance with the Prop 65 law.
